Psychoanalysis and Politics is an international conference series that aims to address how crucial contemporary political issues may be fruitfully analyzed through psychoanalytic theory and vice versa – how political phenomena may reflect back on psychoanalytic thinking. The series is interdisciplinary; we invite theoretical contributions and historical, literary or clinical case studies from philosophers, sociologists, psychoanalysts, psychotherapists, group analysts, literary theorists, historians, political scientists, politicians, political activists and others. Perspectives from different psychoanalytic schools are most welcome. We emphasise room for discussion among the presenters and participants, thus the symposium series creates a space where representatives of different perspectives come together and engage with one another's contributions, participating in a community of thought.

Psychoanalysis and Politics is registered as a non-profit organisation in Norway, org. no. 998 503 221
